DECEMBER 2024

Dropbox Software Engineer
Intern – Summer 2025

Dropbox Cover Letter

Program: Software Engineering
Level II

○ DEAR DROPBOX CO-OP HIRING MANAGER,

I am excited to submit my application for the summer 2025 Software Engineer internship at Dropbox! I strongly believe I have a brilliant set of skills valuable to a distinguished team such as this.

As an aspiring student striving to achieve great things I do feel this is a perfect place to begin my workplace journey, I am a second-year software engineering student looking for new opportunities for experience. During my search, I was intrigued by the kind of work I can expect to participate in as well as what I am expected to contribute. With high expectations, I am more than happy to put in the work to learn from the senior developers and assist to the best of my ability, with the hopes of being able to take on more work as I become more experienced. I absolutely love the idea of making a meaningful impact, and I hope that I am given the opportunity to achieve such a goal.

Though I am still a novice, I have experience with different operating systems, and multiple major programming languages such as C, Java, Python and Bash scripting. I am so excited if given the chance to connect with dropboxers to build a strong professional network. Additionally, I thrive when given the chance to work with a team, gaining valuable knowledge from people around me and channeling it towards taking lead roles and pushing forward to innovatively designing impactful products. I exhibit high levels of communication and interpersonal skills allowing me to collaborate with groups in projects and participate in challenging environments to a high degree of proficiency. Finally given the opportunity to receive one on one mentorship would be an amazing experience to excel in my future career.

I have a deep interest in high-level impactful products and their digital bloodstream that makes them functional which fuels my interest in the position available on this team. Thank you for considering my application. I look forward to hearing from you!

Sincerely,

Sameer Khichi
